DETAILED ACTION***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Harb (6052974).

Harb discloses:

Art Unit: 3671

Carrier adjustably mounted to the spindle (cl. 4);
locking member (cl. 5) &
second frame (cl. 6)

Allowable Subject Matter

3. Claims 12-20 are allowed.
4. Claims 7-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 10/18/2004 have been fully considered but they are not persuasive.

Applicant's argument regarding the ground contacting member rotating independently of the spindle:

First examiner would like to point out that the argued recitation is not the novel feature of the invention, this is clear from reading Applicant's specification, for example, on page 4, line 12-13, "the ground contacting member may be mounted to rotate independently of the spindle." Therefore, ref 112, the ball shaped ground contacting member, lacks any structure, such as a typical bearing, to allow independent movement from the spindle or shaft. Just as the applicant discloses that the ground contacting member **may be** mounted to rotate, Harb's member also assumed to may be rotate. It is noted that no structure is required to make this case, since none is provided by the applicant.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
